

## TRANSITION TO TOUCHLESS

The full impact of COVID-19 remains uncertain. What is certain, though, is how to reduce its spread. In commercial buildings, that starts when you open the door.

Touchless door hardware solutions lessen contact transmission and minimize opportunities for exposure. Whether it's public restrooms, main entrances or individual offices, hands-free environments have gone from a special feature to a necessity today.

**The touchless solution sets listed are just a few of the options available. Unified will work with you to determine the right touchless solutions for your building, budget and long-term goals.**

**Contact us at Unified.**

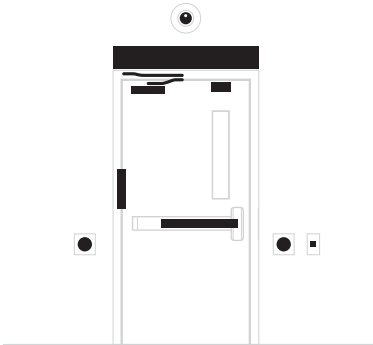

**dormakaba** 

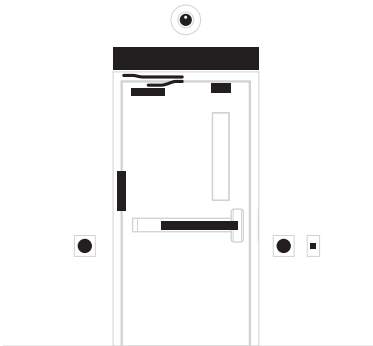

Touchless access is crucial in high contact public places such as healthcare facilities, restaurants, schools, offices and restrooms. Your access system shouldn't be a barrier to entry. dormakaba offers many solutions to fit your evolving needs. We can help you transform any manual opening door into an automatic opening so that it minimizes high-frequency touchpoints, reduces the spread of germs and, ultimately, make building occupants feel safe.

**SINGLE DOOR W/ CARD READER & ELECTRIC RETRACTION EXIT DEVICE\***

QTY.	ITEM DESCRIPTION
1	ED900 J8 Low Engery Operator
1	9300 MLR Exit Device X YR08 Trim 630
1	ES105 Power Transfer
1	ABH PT200EZ x Finish - Electric Power Transfer
1	KRN-SWINGER-75W - Swinger Control
2	BEA MS08 - Touchless Push Plate
OPTIONAL ACCESSORIES	
1	BEA 10BodyGuardIII - Body Guard Sensor
2	BEA 10SuperScanII - Safety Sensor
